

Activity: THE GEOLOGY OF THE BARCELONA OUTBACK: MONTSERRAT

Price per person: 100€

1-MORNING VISIT: MONTSERRAT CONGLOMERATE MASSIF

Montserrat massif will be observed both from the distance and from within (monastery area). This massif is distinctive for its conglomerate pinnacles, resulting from a very penetrative high-density joint system that is developed throughout a very homogeneous conglomerate. Montserrat contains the world's largest amount of conglomerate pinnacles within a massif.

2-LUNCH AT OLLER DEL MAS BAGES 964

Gastronomic menu at Wine bar room. Scenic views to Montserrat.

3-TIME SCHEDULE
